Rio PRO 360™

Faster, flexible,
professional
direct-to-card printing

Rio PRO 360™

Security, compliance and peace of mind: built in.

Magicard's fastest printer to date, the state-of-the art Rio Pro 360 is a powerful way to create secure ID cards in high volumes.

Plug and play - To meet customer demands, Magicard's aim is to get each printer up and running quickly and easily. The Rio Pro 360 integrates with existing network infrastructure 'out of the box', minimising set-up time and requiring little technical knowledge.

Enhanced security - The Rio Pro 360 has the ability to print an anti-fraud customisable HoloKote watermark on every card. Magicard has built into each Rio Pro 360 the ability to receive up to 10 anti-fraud customised HoloKotes direct to the printer via Magicard's web tool.

Faster speeds - Each *full colour*, single-sided card, with HoloKote®, can be printed in under 20 seconds giving the Rio Pro 360 the ability to print up to 200 cards per hour.

Improved updates and upgrades - Magicard's robust update process allows for updates to be applied to each printer as and when they are available. Upgrades are delivered electronically to the printer via Magicard's electronic upgrade web tool.

Superior quality - Magicard's LYNK module gives users a wider colour spectrum so printing is more vibrant and colour-rich. That means a truer representation of the subject – perfect for photographs on ID cards and more accurate depiction of corporate logos and other images.

Fully flexible - Choose between the 100- and 200- card input hoppers provided with the Rio Pro 360.

Printer features

Standard

Optional

Free 3 year limited warranty and support*

The Rio Pro 360 is backed by the best warranty in the industry. The fully comprehensive three-year MAGiCOVER PLUS package includes no-quibble printhead cover and a hot-swap loaner service. 360 users will never be without their printer and always have full access to the global Magicard technical support team.

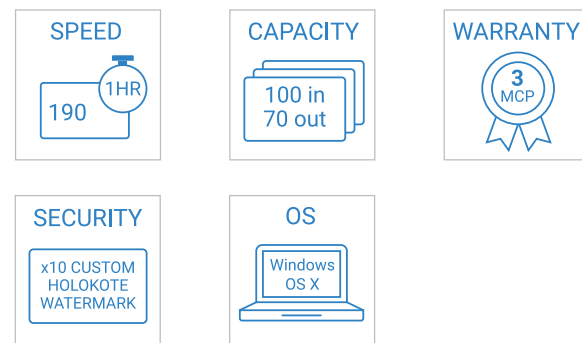

*Available in the UK, EU, North America and other selected territories. Elsewhere a minimum of one year limited depot warranty.

The Magicard developed Linux-based LYNK module is compatible with high speed USB 2.0 and 10/100 Ethernet and easily integrated with third party applications, both locally and in the Cloud.

LYNK allows users to take full advantage of the capabilities built into the Linux operating system such as mature communication stacks which have been tried and tested throughout many applications and industries. The LYNK-equipped Rio Pro 360 connects securely and seamlessly with existing infrastructure, meaning for example, when Rio Pro 360 is connected to a typical TCP/IP network it will obtain an IP address automatically and “just work” without user intervention.

Printer highlights

The intelligent identity solution for:
Enterprise, facilities, education, governments and payment applications.

VARIANTS

Rio PRO 360

Building on a quality reputation

The Rio Pro 360 builds on the reputation of its predecessor, the Magicard Rio Pro, for long-life, durability and stability with a printer designed to excel.

Rio PRO 360 Secure

Secure your credentials

The Rio Pro 360 Secure features an opaque, lockable input hopper to secure blank cards. A secondary lock prevents the printer from being opened by unauthorised personnel and secures the opaque output stacker cover.

Rio PRO 360 Xtended

Xtend your card printing capability

With an extra-large hopper and stacker, this adaptation of the Rio Pro 360 prints oversized cards up to 140mm (5.51”) long. Ideal for ticketing, accreditation and labelling.
